

Student activity:

Using the data in the table below, draw a line graph (with three lines) to show the information of how numbers of holidays taken by UK residents have changed.

- Years should go along the X axis and numbers of people along the Y axis.
- Use a different colour for each line.

Data table:

Year	Holidays abroad (in millions)	Holidays in Britain (in millions)	Total (in millions)
1970	7	32	39
1975	8	40	48
1980	12	36	48
1985	16	33	49
1990	21	32	53
1995	26	32	58
1998	29	27	56

What patterns does your graph show?

.....

.....

.....

.....

.....
