

Student task:

For each answer write a suitable question.

The questions and answers should be connected to volcanoes.

If the answer is ...	What is the question?
Shield volcano	
Dormant	
Composite volcano	
Mauna Loa, Hawaii	
Pyroclastic flow	
High, steep sides and violent eruptions.	
Gentle sloping sides	
Vent	
Crater	
Dyke	
Ash and cinders	
Lava flow	
Alternating layers	
Martinique	

Teaching notes

This activity is based on the game of Jeopardy.

Students create a question for each given answer that relates to the theme of volcanoes.

Once completed students can produce a mind map using the key words.
