

Student information sheet

These maps show two different measures of development.

Map showing the gross domestic product (GDP) of countries around the world.

Map showing human development index (HDI) of countries around the world.

**Student tasks:**

- Using an atlas and the maps of GDP and HDI complete the following table for 10 countries of your choice. Try to choose countries from different continents.

Name of country	GDP	HDI

- Would you expect a country with a very high GDP to have a very high or a very low HDI?  
**Explain your answer.**
